OCEAN CABLE COMPANY.

The Chicago Tribune hears that Messrs. Mackay and Coe have taken \$2,000,000 out of \$7,000,000, the other \$5,000,000 having been subscribed—in the stock of the Hadley Ocean Cable Company which is to stretch two cables under the Atlantic and which will also touch all important Pacific Coast points, Japan, China, India, Australia, etc., and in this country connect with the Mackay, Coe, Roberts & Co.'s Postal Telegraph lines which are being stretched to all important points in the United States and in the Dominion. The ocean rates are to be 25 cents per word, and will yield probably 15 percent on the investment. The shore lines of the cables are to be laid yet this Autumn and the Atlantic deep sea cables next May. As things are taking form, the Postal Telegraph Company is swiftly becoming a formidable rival of the great original Western Union anaconda, and the New York papers have ceased to make light of the work of the Nevada miner, who had the assurance to attack the prestige and the power of the great telegraph chiefs in their own stronghold. The country will, a year hence, have much cheaper telegraph service, and for that it is but right that we should be duly gratified.

EDITORIAL NOTES.

The committee appointed to settle the row between Hamilton county, Ohio, Democrats, have failed miserably, and the Cincinnati News-Journal, says, mournfully: "There is not a Republican in Hamilton county, or in the State, who did not rejoice yesterday morning when he saw that harmony had not yet been reached in the Democratic ranks." The regular chapter of Democratic blunders is being written.

With this issue the GAZETTE enters upon volume XVI.

WESTERN DISPATCHES

THE YELLOW FEVER SCARE ABATING—

Saturday Night's Explosion—Senator Sharon Still Charges Forgery.

SAN FRANCISCO, October 1.

There was no further development of the yellow fever brought here from Mexico on the steamer Newborn. The quarantine is rigidly maintained, and as the patients on board the ships are reported recovering, it is believed that all danger to the city will soon pass away. The weather is cool, with a strong breeze from the west.

At the California Powder Works' explosion Saturday evening, a call of the roll shows thirty-three Chinamen missing, and Walter Walker, Assistant Superintendent, he was the only white man killed. The immediate cause of the explosion is not known and probably never will be, as not one of those inside the mixing room, where the explosion took place, escaped. The loss of property has not yet been determined.

Senator Sharon's return to the city has revived the question of his alleged marriage with Miss Aggie Hill, and the charge of adultery brought by her against him. Interviewed on the subject, Sharon again emphatically denies the truth of the charges, saying: "The written marriage contract, and any other similar document bearing my name, are simply forgeries." Nelson states that Governor Rinehard of Wisconsin, who attended the wedding of Miss Flora Sharon with Sir Thomas Hasketh, will come from the East and testify that he heard Senator Sharon acknowledge he had been secretly married to Miss Hill. The matter does not come into Court until the 15th inst.

The body of William Stomming, aged 20 years, was discovered yesterday morning in New York, he having been murdered.

A store boat on the Ohio river near Rockport, Indiana, was discovered to have been burned, and the remains of a man were found in the hull, having been shot, and beaten with a heavy bludgeon.

EASTERN DISPATCHES.

ATTEMPTED TRAIN ROBBERY.

DODGE CITY, September 30.

The three men arrested at a late hour last night, named Looney, Chambers and Dedin, have since proved to be the attempted train robbers. They were brought to Dodge City by special train, under a heavy guard and have been placed in jail; but the excitement there is so intense that the men will probably be removed to some other point during the night. In the express safe at the time of the attempted robbery was between \$40,000 and \$50,000, and for the fight made by Patterson, the robbers would probably have made a big haul, as before he drove the man from his car, the men on the engine had things their own way. The plan of the robbers was that while two men captured the engine and made the engineer run the train, the third man was to kill the messenger and rifle the safe, while the train was in motion, and then all escape at once to some convenient place between Coolidge and Dodge City. The belated train reached Kansas City last night, and Patterson, the express messenger, makes the following startling statement:

"You are aware that the rail took place at Coolidge, on the line of the Atchison, Topeka & Santa Fe, ten miles east of Colorado station, between 2 and 3 o'clock this morning. There is an eating-house in the station, and the train stopped 20 minutes as usual, in order to give the passengers a chance to get a lunch. The train was No. 4, bound east, with John Greeley, conductor. When the train stopped, I put off some railroad mail which I had, and there being no express to put off and no further work for me to do, I lay down on my box just in front of the side door on the side of the car next to the depot. After lying a few minutes, I dropped into a doze, and was lying on my back with my arms folded over my breast. Both of the doors on the side of the car next to the platform were open, baggage-man Johnson being seated in the back side door, looking out on the platform. My revolver lay at my side; I had taken it out of my scabbard and laid it down, that I might be ready for any emergency. The pistol lay where I could easily put my hand on it. At about the time for the train to start, I heard the words 'Come out of there you _____.' This woke me, and I afterwards learned that the remark was made by conductor Greeley to a man whom he noticed getting into the car; when I woke, I naturally glanced down the car, and I saw standing within four feet of me, a man with a pistol in his hand.

"I was lying with my head toward the front end of the car, and the man was standing near my feet; I did not say a word, in fact, did not have time to speak before he covered me with his revolver and fired; the bullet went over my head, and I could feel fire burning my face. The man then fired a shot out of the doorway at the conductor. When he fired I realized that a train robbery was going on. With the hope of making the robber believe he had killed me, I unclasped my hands which were folded on my breast, and allowed them to fall; the right hand fell on the muzzle of my revolver, and realizing that it would never do to allow the robber to see that I was about to defend myself, I worked my hands slowly into position until I had hold of the pistol with my right hand, and my finger on the trigger; the robber did not notice this, because it was quite dark in the part of the car where I lay. The man was working his way to the rear of the car, evidently supposing he had finished me and intended to kill the baggage-man or any one else who got in his way. As soon as I got hold of my pistol I sprang into a sitting position and fired at him; I jumped up then and walked toward him; he raised his revolver as if to shoot again, but it went off prematurely, the ball striking the roof of the car. When I shot at him a part of his body was behind the stone; I aimed at his abdomen, and I believe that the ball took effect.

"About this time I saw another man who proved to be a pal of the first, trying to climb in at the side door; no sooner had I fired than he disappeared, and the man from the rear side door. That was the last I saw of the robbers. In less than half a minute after they left my car I heard some shots at the engine; three were fired in half as many minutes. I stood at the front slide door of the car, revolver in hand. Just then conductor Greeley came up. 'Have they gone?' I asked. 'I think so,' said he, 'but believe the engineer and fireman are hurt.' Going forward and returning to me he said, 'They were both killed; the engineer is shot through the heart and the fireman through the neck.' I then jumped out on the platform and saw the engineer and fireman lying on the platform along side the engine. The fireman was still conscious and was taken into the hotel, where I talked with him a few minutes. The body of

the engineer was put aboard the train and taken to Dodge city. Before the train left I went into the telegraph office and sent a telegram to Mr. Patch. After considerable delay we got a new engineer and fireman at Coolidge and started again, one hour and forty minutes late. At Cimmaron, twenty miles distant, we met a special from Dodge City coming to Coolidge with the Sheriff and posse to pursue the robbers." Marshal Mather and C. Parsons of Bert county, Colorado, arrived late last night on a special train from Coolidge. They brought with them from Lodney a cow boy belonging to the Arkansas Valley Stock Company's ranch, Louis Chambers, also a cow boy with Bates and Beals on the L. X brand. Both men have exceedingly hard reputations about Coolidge. Chambers was armed with a hammerless 45-calibre revolver, which, when examined, showed to have been recently fired and reloaded. Looney was unarmed, and neither made any resistance. Looney is silent and refuses to talk, while Chambers, though uncommunicative, plainly shows his anxiety and uneasiness. A large crowd accompanied the prisoners to the jail. Were it positively known that these were the right men, an effort would undoubtedly be made to lynch them.

Cattle Rancher in Limbo.
 CHICAGO, October 1.
 Frank R. Sherwin, a New Mexico ranch owner, arrested here a few days ago on a requisition from the Governor of New York, was before Judge Burnham, in the Circuit Court this morning, on petition of habeas corpus. The petition for his release was denied, and he was remanded to the custody of the officers, who will probably take him to New York.

A Turbulent Congregation.
 WILKESBARRIE, October 1.
 The Polish congregation at Nanticoke is trying to depose the priest, Father Grallard. Recently 800 members petitioned Bishop O'Hara to remove him, and yesterday he was met at the church door by the excited congregation, who refused to let him enter for the celebration of high mass. They charge him with financial mismanagement.

Bloody Work in Mississippi.
 SUMMIT, Miss., October 1.
 L. D. Whittington, sheriff of Amite county, was stabbed twice in the back and killed at Liberty by Eugene McElme. The trouble grew out of politics; both parties were Democrats. After the murder McElme was surrounded by a crowd, one of whom shot him and he died in 10 minutes; both were highly connected.

FOREIGN DISPATCHES.

INCREASED HIS PRESTIGE.

MADRID, October 1.
 A correspondent of the Times says: The hostile reception accorded to Alfonso in Paris has considerably increased his prestige at home. His personal courage and discretion, his dignified bearing during his progress through the streets of Paris, and his visit to President Grevy's residence at Elysée without an escort, are subjects of general eulogium and admiration by the Spaniards.

The citizens are highly incensed over the insults offered Alfonso in Paris. Bands of people paraded the streets yesterday evening insulting Frenchmen, and openly threatened the French Embassy. The police, however, prevented any violence. Senor Monet, at the Medge Democratic Club, declared that the insults offered the King, were to the whole Spanish nation, which would stand by the King. His utterances were received with loud cheering. Marshal Terrana telegraphed Senor Canovas Del Castello, that the cause of monarchy demanded his presence in Madrid. The officers of the Garrison also held a meeting at which strong speeches against France were delivered.

They Demand an Apology.
 PARIS, October 1.
 Alarming reports prevail that the Spanish Cabinet will demand that the French Government make a public apology for the insults offered Alfonso, and the German Government will make a diplomatic remonstrance at the indignities to which the Spanish King was subjected. The Radicals violently attack President Grevy and Prime Minister Ferry for the course they have pursued in the matter. The Cabinet is divided in its opinion as to its policy.

King Alfonso and suite, left this city on the 5:45 train this morning for Spain. No demonstration by the populace on their departure.

The Texas cotton crop is much lighter than in 1882.

Proctor & Sons, corn millers at Newcastle, England, have failed; liabilities, £150,000.

The propeller Colorado burst her boiler at Buffalo Saturday evening killing several people and wounding many others.

OF THE UNITED STATES.

IT PRESERVES YOUR BUTTER COLD, sweet and fresh, as no other refrigerator can do. This is guaranteed. It is a fact long established by all connoisseurs of butter, that any vessel, cabinet or refrigerator, made of wood or any other substance carrying with it an odor, destroys the rich aroma contained in fresh butter; and furthermore, all butter kept in the same vessel, cabinet or refrigerator with vegetables, any kind of meat, or any substance carrying a scent, becomes so tainted as to be unfit for table use, and even for culinary purposes. People may complain of poor butter, but the fault lies in the manner of keeping it.

A HOME DRUGGIST

TESTIFIES.

Ayer's Sarsaparilla.

The following letter from one of our best known Massachusetts Druggists should be of interest to every sufferer:

"Eight years ago I was afflicted with Rheumatism, so severe that I could not move from the bed, or rise without help. I tried several remedies without much if any relief, until I took Ayer's Sarsaparilla, by the use of two bottles of which I was completely cured. I have since taken large quantities of your Sarsaparilla, and it still retains its wonderful purity. The many notable cures it has effected in this vicinity convince me that it is the best blood medicine ever offered to the public."

From two to three cars of California fruit are going east every day, by the regular express train.

There is no diminution in business being done by the Bidwell stage company, every stage going out loaded down.

Della, the little daughter of Sol Levy, won the building lot which was raffled off by George Avery Saturday evening.

The ladies will be pleased to hear that Levy Bros. have even a better line of goods this year than last. You would hardly believe it, but it's true.

No one can fail to be pleased with a call at J. K. Everett's store. It is so neatly kept, so well arranged, and the goods are so fresh and pure that a second call is almost a certainty.

Lindley still feeds the inmates of the asylum, the State penitentiary, the men at the mines in Churchill county, the workmen at the English mill, besides most of Reno and the country about.

Nothing but the most upright course ever gave a house such popularity as that enjoyed by the Wine House. There is only one rule to go by, and that is fair treatment and honest dealing for great and small.

Knowles & Bainbridge show the tin roof on Wintermantle's building as a specimen of their work. It has been often said that such work could not be done here. They are ready to do anything of that kind and warrant it. It is all in knowing how to do it, and they do that exactly.

A Mysterious Death.

About 1 o'clock Thursday afternoon, as W. R. Williams was passing through a cross street in the lower end of town leading from Main street to West avenue, says the *Tuscarora Times Review*, he noticed a child lying in the road. At first he thought the little one was asleep, but on going nearer he discovered it was dead or nearly so. After picking it up it gasped once or twice, but afterward gave no sign of life. There was a small pool of blood in the road where it was lying, and its breast and head considerably bruised. It proved to be Freddie, the little son of John Kane, blacksmith at the Elko Con. The child had only been out of its mother's sight about half an hour, and the only reasonable inference is that it was run over by a team without the driver being aware of the accident. The child was two and a half years of age. The feelings of the mother, when her offspring was placed dead in her arms, can better be imagined than described.

A Desperate Litigant.

The *Messenger* gives the details of an attempted assassination, the scene being in a Justice court at Downsville, and the time Friday forenoon. An Italian named Tretti brought suit for an accounting against two countrymen named Angelo. Without a word of warning, and while the trial was going on Tretti drew a self-cocking revolver, sprang forward, and placing the weapon almost in contact with the back of Rosasco Angelo, fired. In an instant he wheeled and advanced to where Charley Rosasco was sitting, and fired at him, the pistol being within less than two feet of him, but the bullet missed the mark. The shooter was overpowered before he could fire again and taken to jail. The wounded man is in a precarious condition.

Glanders Among Cattle.

Since it has been discovered in England that horned stock are liable to glanders, as well as horses, the necessity for stamping out the disease wherever it appears becomes all the more imperative. It is probable that all the domestic animals may have glanders. It has been produced in poultry and rabbits by artificial inoculation, and cases of the disease have been met with in dogs this year in England. Human beings have died from it. Let every owner of stock look out for glanders. It is not a thing to trifle with, as many may think.

An Absconding Partner.

Sheriff Robb of Esmeralda county passed through on the train Saturday morning, having in charge W. B. Bullions, who skipped from Hawthorne a few days ago with the partnership sack, containing \$550, and \$125 belonging to the Knights of Pythias. Bullions is of the firm of Bullions & Blair, saloon-keepers, and was formerly roadmaster on the Carson & Colorado. He was caught at Elko; where Sheriff Robb went after him.

M. E. CONFERENCE.

Appointments, Etc., For the Next Conference Year.

The Conference of the Methodist Episcopal Church, Bishop Warren presiding, including the State of Nevada and so much of California as lies east of the Sierras, closed its labors at Truckee last evening. The Rev. Dr. Hammond was elected as delegate to the next General Conference, which will meet in Philadelphia next May, and Jacob Steiner of Reno was elected as lay delegate to the same body. The question of extending the time for the occupancy of any given charge (which is now three years) was decided adversely. Action was also taken, looking to the possible union of the Nevada and California Conferences. The following are the appointments for the next Conference year: Northern District—N. G. Luke, Presiding Elder—Susanville, Geo. Jennings; Quincy, G. B. Hinkle; Greenville, E. N. Currier; Sierra Valley, to be supplied; Reno, G. W. DeLaMatry; Truckee, L. Ewins; Carson, C. H. Kirkbride; Virginia, George Vandeventer; Genoa, F. W. Willis.

Eastern District—J. D. Hammond, Presiding Elder—Austin, H. Hagaboom; Tuscarora, G. W. James; Winnemucca, Elko and Carlin, all to be supplied.

Southern District—J. H. DeLaMatry, Presiding Elder and pastor at Bodie—Owens Valley, Warren Nims; Mason Valley, G. L. Barstow; with several places to be supplied.

Several members of this Conference have gone east, and several Eastern men are to be secured. Bishop Warren and daughter left Truckee this morning for Carson and Virginia, via Lake Tahoe, and will be in Reno Tuesday evening as guests of Mr. and Mrs. Webster, and leave next morning for the East. Strong efforts have been made to induce the Bishop to deliver a lecture here on Tuesday evening, but so far without avail.

A New Cattle Disease.

The Battle Mountain *Messenger* says: Cattle men inform us that there are hundreds of cattle on the Humboldt that are perfectly blind. So far no cause can be assigned for the disease. A scum forms over the ball of the eye, entirely depriving the animal of sight. A few have but one eye attacked. The blindness last about 20 days, and naturally, the animal not being able to travel in search of food, loses considerable flesh. From what we can learn, the same disease attacked the stock in this vicinity about 7 years ago, and, with very few exceptions, they recovered in about three weeks. There does not seem to have been any efforts made by stock owners to cure the disorder, they leaving nature to effect a cure in its own way.

Seriously Injured.

Last Saturday's Elko *Independent* says: Mr. E. J. Jones, just in from Pleasant Valley, informs us that about 8 o'clock last night Sam May, better known as "Red-Eyed Sam," was found lying insensible in the road, near the Amos ranch, dangerously, if not fatally, injured. He had been driving a team during the day, and it is supposed that he fell, or was thrown out of the wagon, the wheel of which ran over his body. Nothing further regarding the matter could be obtained this evening.

The Nevada and Oregon Railroad.

It is understood that the Nevada & Oregon Railroad will shortly be sold at U. S. Marshal's sale to satisfy a mortgage held by the Union Trust Company of New York. The requisite papers are already in the hands of the U. S. officials in Nevada, and the notice of sale will be made public in a few days. The order of the Court is that the sale shall take place and the money deposited, pending the equity suit now before that Tribunal.

May be Trouble Some.

A few years ago Billy Smith, now postmaster at Eureka, had an autograph letter written by Ben. Butler, in which he said he knew of no reason under the constitution why a Chinaman could not become a citizen of the United States. If Benjamin should happen to corral the nomination for President, and Billy still has the letter, he will be apt to cause the old man some trouble in the way of explanation.

The First Rain.

Passengers from California yesterday morning, reported that the rain commenced falling about 3 o'clock at San Francisco, and followed the east-bound express until it reached Truckee, and from present indications we may soon expect a moistening down this way.

LATER—The rain has reached here this afternoon and looks as if it had come to stay.

Has Gone East.

Sister Mary Aquin, of Mount St. Mary's Academy, left for the East on this morning's express. Nearly the whole school seemed to be on the platform to bid her goodbye, and the sad faces and tearful eyes indicated the estimation in which she was held by her pupils.

Notice.

Frank Plumb, a C. P. Conductor who has been laid up for several weeks with a bad swelling of his right foot, supposed to have been caused by handling brakes, went to the railroad hospital at Sacramento yesterday.

A. L. Frost, United States Collector of Internal Revenue for the consolidated district of the Fourth California and the State of Nevada, came from Sacramento this morning on his way to assume control of this portion of his new field. It is supposed that Captain Lord will turn the office over to-day and be retained as deputy.

The Standard Mill.

The Standard Con. mill at Bodie, started up last Friday, whereas, the denizens of the city above the timber line rejoice. A new engine of 170 horse power has taken the place of the old one, and the boilers have been put in condition for a long run. The *Free Press* says: "Everything is now in excellent order and the modest roar of the dropping stamps will make pleasant music through the entire winter. Some people may prefer the deep, sad murmuring of the rolling billows of the sea, or the soft, voluptuous music of the waltz, but for something substantial give us the tintinnabulation of the many stamps in a quartz mill."

A Sudden Death.

C. B. McClellan, an artist, and an old pioneer, was found dead in his bed in a room off his studio in Becker's block, to-day about 12 o'clock. The deceased is well known in California, having lived many years in Marysville and San Francisco. He has also been a resident of this State for many years, residing the most of the time at Virginia City. He had been ailing for some time but was about the streets up to a late hour last evening.

Railroad Notables.

A Pullman car attached to yesterday's east-bound express contained S. H. Clarke, General Manager of the Union Pacific Railroad, S. H. Greer, General Ticket Agent of the same road, E. O. Wolcott, of the C. B. & Q., and P. Lowell, General Passenger Agent of the same; Thomas Miller of the Baltimore & Ohio, D. C. Dodge and family, of the Denver & Rio Grande, and A. S. Hughes and Mr. Eccles of the same road.

Will Be Missed.

The following from the Carson *Appeal* indicates the popularity of the wife of Nevada's promising Governor: Governor and Mrs. Adams have gone to Reville District per private conveyance, and will be absent several weeks. Mrs. Adams will be missed by her friends.

A Lively Shop.

Foreman Dan Kelly of the V. & T. blacksmith shop at Carson, informs a *GAZETTE* reporter that he has had more work this season than for seven years. In addition to the work for the V. & T. and C. & C., a great deal has been done for the mines and mills.

Jewish New Year.

The Jewish new year, the first day of Tishri, will commence this evening at 6 o'clock and continue until Wednesday evening at the same hour, during which time the several places of business conducted by our Hebrew citizens will be closed.

FINE FRUIT.

What Can be Done on Sagebrush Land.

A pretty plain contradiction is presented to the old idea that apples cannot be raised here, by Mr. Morton's orchard, two miles south of town. He brought a box of his own raising to the *GAZETTE* office Saturday, and a sprig two feet long with 31 apples on it. It hangs on the wall now, with only three broken off. He has 20 trees of the Spitzenberg brand, that keeps till January, and a red Astrachan, that grows much larger than the same kind does last. His best apple, however, is a large green one without a name, that keeps till May, and improves till about Christmas, when it is rich and mellow, and is delicious whether cooked or not. He has 400 trees on two acres, and they stand like umbrellas, with the boughs bending to the ground with the weight of fruit. He has only lost two crops in eight years. Plums and pears do well, but he has only a few trees. When asked why he did not plant 20 acres instead of two, he said that he was told by everyone that he was throwing his time away, and a good many advised him to get up and leave the place altogether. He stuck to it, however, and now has 1,000 acres of the best land in the county.

Many who never complain are nevertheless seriously ill. Use Brown's Iron Bitters and there will be no cause of complaint.

The testimony in the Coombs case was all in to day at 12 o'clock. After recess District Attorney Alexander commenced the opening argument for the prosecution.

TUTT'S PILLS

TORPID BOWELS, DISORDERED LIVER, AND MALARIA.

From these sources flow the four great diseases of the human race. These symptoms indicate their existence: Loss of Appetite, Bile, constive, Sick Headache, fullness after eating, aversion to exertion of body or mind, Eructation of food, Irritability of temper, Low spirits, A feeling of having neglected some duty, Disinclination to exertion of the body, Drowsiness, Fluctuating of the Head, Dots before the eyes, highly colored Urine, CONSTIPATION, and demand the use of a remedy that acts directly on the Liver. As a Liver medicine, TUTT'S PILLS have no equal. Their action on the Kidneys and Skin is also prompt; removing all impurities through these three "scavengers of the system," producing appetite, sound digestion, regular stools, clear skin and a vigorous body. TUTT'S PILLS cleanse the bowels or griping nor interfere with daily work and a pleasant sleep.

Having Admitted the Strength of the Evidence, an Eminent Physician Takes Logical Action.

The following letter tells its own story. The signature will be recognized as that of the Physician-in-Chief of the De Quincey Home, and author of "Drugs That Enslave," "The Hypodermic Injection of Morphine," "A Manual of Nursing," and many other popular and valuable special medical works:

101 WEST TENTH STREET, NEW YORK, August 11, 1880.

MESSES. SEABURY & JOHNSON, Gentlemen:—Like most of my profession, I am cautious about planning my faith to any new medicine or curative agent. But your BENSON'S CAPSICUM POROUS PLASTER has broken through the barriers and won its way to my good opinion. My attention was first called to it some eight months ago by a patient of mine. Although I was well acquainted with it personally, I find BENSON'S CAPSICUM PLASTER an exceptionally clear plaster to use and rapid in its action.

Many cases of Rheumatism, made in my own family and among my patients, have convinced me that there is no other single article so valuable for popular use, nor so helpful in the diseases I have named.

Should you desire to do so you may use my name to that effect.

Very truly yours,
H. H. M. D.

The genuine have the word CAPSICUM in the center. Price 25 cents.

Failing!

That is what a great many people are doing. They don't know just what is the matter, but they have a combination of pains and aches, and each month they grow worse.

The only sure remedy yet found is BROWN'S IRON BITTERS, and this by rapid and thorough assimilation with the blood purifies and enriches it, and rich, strong blood flowing to every part of the system repairs the wasted tissues, drives out disease and gives health and strength.

This is why BROWN'S IRON BITTERS will cure kidney and liver diseases, consumption, rheumatism, neuralgia, dyspepsia, malaria, intermittent fevers, &c.

Mr. Simon Blanchard, a well-known citizen of Hayesville, Meade county, Kentucky, says: "My wife had been sick for a long time, and her constitution was all broken down and she was unable to work. She was advised to use BROWN'S IRON BITTERS, and found it to work like a charm. We would not now be without it for any consideration, as we consider it the best tonic in the world."

BROWN'S IRON BITTERS is not a drink and does not contain whiskey. It is the only preparation of Iron that causes no injurious effects. Get the genuine. Don't be imposed on with imitations.
